G11 -40°C

ANTIFREEZE CONCENTRATE

Mölder Antifreeze Concentrate G11 Green coolant concentrate for cooling engines of domestic and imported cars. Premium additives prevent the formation of corrosion and freezing, increase the boiling point. Protects the cooling system from calcification. Strict observance of the specified proportions guarantees preservation of all knots of cooling system and increase in service life of engines from aluminum and gray cast iron. Resistant to freezing at temperatures down to -40°C (subject to a ratio of 1: 1). Antifreeze fully meets the requirements of the automotive industry and all modern requirements for technical fluids. Does not contain nitrates, amines, phosphates.

ANTIFREEZE CONCENTRATE

Mölder Antifreeze Concentrate G11 Blue coolant concentrate for cooling engines of domestic and imported cars. Premium additives prevent the formation of corrosion and freezing, increase the boiling point. Protects the cooling system from calcification. Strict observance of the specified proportions guarantees preservation of all knots of cooling system and increase in service life of engines from aluminum and gray cast iron. Resistant to freezing at temperatures down to -40 ° C (subject to a ratio of 1: 1). Antifreeze fully meets the requirements of the automotive industry and all modern requirements for technical fluids. Does not contain nitrates, amines, phosphates.

G12 -37°C

ANTIFREEZE CONCENTRATE

Mölder Antifreeze Concentrate G12 Red coolant concentrate for cooling engines of domestic and imported cars. Premium additives prevent the formation of corrosion and freezing, increase the boiling point. Protects the cooling system from calcification. Strict observance of the specified proportions guarantees preservation of all knots of cooling system and increase in service life of engines from aluminum and gray cast iron. Resistant to freezing at temperatures down to -37°C (subject to a ratio of 1: 1). Antifreeze fully meets the requirements of the automotive industry and all modern requirements for technical fluids. Does not contain amines, phosphates, silicates. Suitable for all-season use.

WINTER GLASS WASHER -20°C

Ready-to-use premium winter glass washer for protection against freezing and removal of road dirt from the glass and headlights of the car at temperatures down to -20°C. Effectively removes salt and oil contaminants from car glass. Prevents the formation of ice crust and other frosts. Prevents freezing of the tank, nozzles (including flat flares) and other elements of the windshield washer system. Does not contain acetone and methanol. Neutral to rubber and metal elements of wiper blades, rubber seals, car paint, polycarbonate glass. Does not leave stains. It has a pleasant aroma.

MÖLDER®

PROFESSIONAL GREASE AND SEALANTS

art. SIL343

GRAY HIGH-TEMPERATURE 100% SILICONE SEALANT GASKET MAKER 85 g +343°C

Elastic, fast-hardening, solvent-free silicone sealant for sealing gaps in flat joints (without dismantling parts).

Properties:
Heat resistance from -50°C to +343°C (short-term maximum temperature). High resistance to such chemical environments as diesel fuel and fuel for internal combustion engines, oils, fats, greases, water, sea water, sunlight and ozone.

Areas of application:
For sealing all surfaces of seals in the engine, gearbox, axles, for sealing cylinder liners and crankcases. Good adhesion with rough surfaces. Approved for use in all European and Japanese cars.

Operating Instructions:
1. Remove the remains of sealants and other materials
2. Clean the surface, degrease it and let it dry.
3. Apply sealant on one side and immediately install the parts.
4. Effectively seal small gaps, in other cases observe the mass hardening time (0.1-0.2 mm/h).
5. After use, close with a protective cap.

art. SIL370

RED HIGH TEMPERATURE 100% SILICONE SEALANT GASKET MAKER 85 g +370°C

Elastic, fast-hardening, solvent-free silicone sealant for sealing gaps in flat joints (without dismantling parts).

Properties:
Heat resistance from -50°C to +343°C (short-term maximum temperature). High resistance to such chemical environments as diesel fuel and fuel for internal combustion engines, oils, fats, greases, water, sea water, sunlight and ozone.

Areas of application:
For sealing all surfaces of seals in the engine, gearbox, axles, for sealing cylinder liners and crankcases. Good adhesion with rough surfaces. Approved for use in all European and Japanese cars.

Operating Instructions:
1. Remove the remains of sealants and other materials
2. Clean the surface, degrease it and let it dry.
3. Apply sealant on one side and immediately install the parts.
4. Effectively seal small gaps, in other cases observe the mass hardening time (0.1-0.2 mm/h).
5. After use, close with a protective cap.

art. **P 9091**
POLYURETHAN ADHESIVE FOR AUTOMOTIVE GLASS

Volume: 600 ml
Barcode: 4002873190914
Packaging: 20 pcs.

Ready-to-use one-component polyurethane glue-sealant Molder is designed for fastening the front, side and rear glass in the car. It is easily applied manually by spraying with a specialized gun, as well as with the help of industrial equipment. Adhesive sealant hardens as a result of a chemical reaction with air, has excellent adhesion to glass, metal and other materials. Resistant to the effects of ultraviolet radiation and thermal loads. It has good strength characteristics and deformation qualities after hardening.

Properties:
The formation time of the surface film is about 15 minutes. (Tack-Free Time 23°C, 50% relative humidity). High strength and good elasticity even after a long period of operation. Very good resistance to sagging. High resistance to ultraviolet radiation.

Field of application:
It is used for fixing the front, rear and side glass to the body of the vehicle (cars and trucks, buses). Recommended for warranty repair of European and American cars. The product is intended for professional use.

Packaging: 12 pcs.

Polyurethane quick-drying one-component sealing seam sealant with high strength and elasticity. It has vibration- and noise-absorbing properties.

Properties:
The formation time of the surface film is about 25 minutes. (Tack-Free Time 23°C, 50% relative humidity). High strength and good elasticity even after a long period of operation. Very good resistance to sagging. High resistance to ultraviolet radiation.

Field of application:
It is used to restore almost any seams and joints in accordance with the requirements of the automotive industry. Recommended for warranty repair of European and American cars. The product is intended for professional use.

BLACK

Multipurpose lithium grease with the addition of molybdenum disulfide and high quality graphite. Made on the basis of deeply purified highly viscous base oils with the use of complex lithium soaps as a thickener. A specially selected package of additives that allow efficient and reliable operation in a wide range of temperatures.

Properties:
Operating temperature range: from -35°C to +130°C. It has excellent sealing properties. Provides reliable protection against wear, resistance to oxidation and corrosion. Can be used as a standard grease for cars. Very good water-repellency and strong adhesion to metal prevents lubrication from washing out, extending the service life of the bearings

Universal multi-purpose grease, developed using an optimized combination of high-quality mineral oil and the addition of heat-stable lithium complex soap. A specially selected package of additives allows to achieve reliable operation in a wide range of temperatures.

Properties:
Operating temperature range: from -35°C to +120°C. Has excellent sealing properties, waterproof. Provides reliable protection against wear, resistance to oxidation and corrosion. It is used as a standard grease for cars.

BLUE

Heat-resistant high-temperature anti-seize plastic grease, developed using an optimized combination of high-quality mineral oil with a specially selected additive package in an optimally balanced ratio. The product has excellent mechanical stability and thermal stability in a wide range of operating temperatures.

Properties:
Operating temperature range: from -35°C to +170°C. High load resistance minimizes the wear of bearings, helping to increase its resource and reduce maintenance costs. Good water resistance and adhesion to metal surfaces prevents lubrication from washing out.

MÖLDER

OIL FILTERS

The main purpose of the oil filter:
• Prevent premature engine wear by removing particles pollution from engine oil;
• Provide optimal supply of clean oil for lubrication;
• Ensure engine components are lubricated in case of filter blockage or «cold start».

Filter material:
• Has a large area and high mechanical strength.
• Effectively filters harmful pollution particles.
• Has the ability to retain particles of pollution during long periods of vehicle operation;
• Resists high temperatures and acidic environment.

Bypass and anti-drainage valves
• Prevent backflow of oil;
• Provide instant oil supply during engine start-up;
• Work in exact accordance with the values of the pressures offered the original manufacturer of the car.

MÖLDER oil filters effectively clean engine oil of contaminations:
• Dust, metal shavings and other fractions, down to the smallest particles with a size of 10 μm (0.01 mm) are carefully removed from the lubrication system;
• The threat of damage and wear of engine structural elements is significantly reduced;
• Due to the purity of the oil and the optimal action of the grease, fuel consumption and emissions of harmful substances are reduced;
• High-quality MÖLDER filters withstand temperatures up to 160°C, while demonstrating resistance to static pressure up to 20 bar.
Our advantages:
• Optimum filtration due to high permeability;
• Ability to withstand pressure and temperature effects in any operating situation;
• High-quality processing and precision connection of filter components ensure flawless operation;
• Perfect fit facilitates installation and guarantees functional reliability;
• The threat of wear and damage to engine structural elements is significantly reduced.

FUEL FILTERS

MÖLDER fuel filters support the operational reliability of the engine and protect the injection system from contamination. The injection systems of modern gasoline and diesel engines instantly react to the slightest fuel contamination. If the fuel filter is not replaced regularly according to the recommendations, it can lead to clogging of the injection systems and a threat to operational safety.
• Due to the fineness of filtration ≥ 2 μm (0.002 mm), highly effective removal of contamination particles is ensured, which thus do not enter the injection system.
• In modern injection systems of diesel engines, the filter removes fuel from the water, preventing corrosion damage to the injection system (eg HPFP - high pressure fuel pump).
• Insufficiently filtered fuel can cause malfunction injection systems;

Types of fuel filters
1. Filter cartridges.
The body remains on the engine, only the cartridge needs to be replaced.
The result is a saving of valuable time and material and a contribution to environmental protection.
2. In-line filters.
The body and filter element are a single unit and must be completely replaced as part of maintenance.
3. Trunk filters.
Trunk filters are divided into mesh and paper and are installed in fuel line. Depending on the field of application, the filter housing is made of aluminum, sheet steel or polymer materials.

Our advantages:
• Thanks to precise and high-quality processing, MÖLDER fuel filters withstand a peak pressure of 15 bar;
• Optimum filtration and a higher degree of purification thanks to the use of high-quality filter materials;
• Significant increase in replacement intervals;
• Injection units and the engine are under protection;
• Insensitivity even to aggressive types of fuel and to high injection pressure.

www.molderfilter.de

MÖLDER®

AIR FILTERS

High-quality MÖLDER **air filters** protect the engine and electronic components, efficiently and reliably cleaning the air. For both gasoline and diesel engines, the air filter is the most important. Depending on the power, the engine of a commercial vehicle sucks up to 1,500 m3 of air per hour, with a particle content of up to 50 mg/m3. The MÖLDER air filter ensures the delivery of an optimally dosed fuel-air mixture, and therefore the best possible combustion.
• Modern high-quality MÖLDER air filters reach almost 100 percent degree of purification, thereby guaranteeing effectiveness throughout interval between maintenance.
• Due to high pulsation resistance, the filters do not pass dust even in dynamic conditions of engine operation.
• Without reliable filtration, airborne particles can settle on the mass air flow sensor and cause power loss and increased fuel consumption.
• Reliable filtration in the long run ensures smooth engine operation and extends service life.

Filter cartridges:
The air filter is the central element of the entire air supply system and can look like a cartridge of any shape. In some cases, various structures are equipped with stabilizing rods or gratings.

Our advantages:
• Protection against wear and increase in engine service life due to excellent filtration of impurities;
• High accuracy of landing and stability ensure 100 percent tightness and long-term functional reliability;
• Flame retardant materials prevent fire;
• Thanks to high-quality special impregnation filter paper withstands pressure and does not tear even in wet weather;
• The special corrugation of the paper ensures maximum stability of the filter and prevents the folds from shifting.

CABIN AIR FILTERS

MÖLDER cabin filters clean the air and provide a healthy, hygienic atmosphere in the car, helping the driver not to lose concentration. In order for the air conditioner to work flawlessly for a long time, it is recommended to replace the cabin filter regularly: at least annually, as the basic rule indicates, and twice a year for intensive driving. Replacement contributes not only to the maintenance of air quality in the car, but also to the careful handling of the car's fan motor, because in this way the air flow will be able to flow unhindered.
• The salon filter effectively traps dust, various allergens and unpleasant odors are removed from the air by almost 100 percent.
• Particles up to 3 µm (0.003 mm) in size are effectively retained.
• A layer of activated carbon acts like a sponge and holds back harmful gases - in pores that are 10,000 times thinner than a human hair.
• The content of harmful fine dust in the car interior is steadily decreasing

Types of cabin filters
1. Cabin filters (Standard).
Spores, pollen and dust are effectively retained, as well as bacteria, fungi and abrasive particles. In the dense plexus of filter fibers, particles are mechanically filtered out of the air stream.
2. Filters with activated carbon (Carbon).
In addition, the filter design contains granules of activated carbon, which are located between the upper and lower layers of the fiber. In addition to abrasive particles, activated carbon traps harmful gases, such as nitrogen oxides, methane, and ozone.
Principle of operation:
The interior filter prevents any particles from entering the interior of the car. An activated carbon filter additionally traps unpleasant odors and gaseous harmful substances.

Our advantages:
• The maximum degree of purification - for healthy air in the car;
• Constant level of filtration efficiency during the entire interval between maintenance;
• Prevention of the formation of condensate and a layer of dirt on the windshield;
• Minimization of unpleasant odors.

HYDRAULIC BOTTLE JACK

5T
art. DB05

Technical details:
Lifting capacity: **5 т**
Type: **hydraulic (telescopic)**
Maximum lift height: **380 mm**
Minimum height: **195 mm**
Type of packaging: **colour box**
Packaging: **5 pcs.**
Barcode: **5901292300500**

The hydraulic telescopic jack is used to lift heavy objects to a certain height, but not for long-term holding in this position.Hydraulic jacks have a high level of efficiency and very high reliability of operation.

• It is used for lifting a car weighing up to 5 tons
• The hydraulic lifting system of increased reliability has a high efficiency
• An ideal combination of high structural rigidity and compactness
• Has a smooth flow. Provides even rise up
• Simple and convenient to use

The two-layer coating reliably protects BELAUTO jacks from corrosion and can be quickly cleaned of dirt. The jack uses universal seals and gaskets that can be easily replaced. All parts of the jacks are perfectly assembled, which indicates quality and reliability.

Jacks are made from primary high-quality raw materials. High reliability is confirmed by the received European quality certificates.
The product meets all basic requirements of EU directives

The product has been checked for quality, tested and approved for safety by GS TÜV Rheinland Product Safety GmbH (Germany).

FIRE RESISTANT — The tape is fire-resistant, ignites only under the influence of an open flame, immediately extinguishes when removed from the fire.

6000B — Resistance to high voltage prevents short circuits and ensures safe work of the master with electrical wiring.

STRETCHING 200% — The good flexibility and elasticity of the insulating tape makes it possible to conveniently work with wires of small diameter.

Tree trunk protector strap

TM BELAUTO OFF ROAD DOES NOT RECOMMEND USING ROPE FOR WINCH to reach a tree (or pole) when pulling out an SUV. This can seriously damage the rope for winch. For this procedure, it is recommended to additionally use a special coverage made of polyester - a tree protector.

Extension rope for winch

Specially designed extension rope for winches manufactured by **BELAUTO OFF ROAD**. Effective when pulling out a stuck SUV or other vehicle. Are perfect for lengthening the winch cable in a situation where the nearest attachment point is out of reach of the cable.

Tow cable extension winch with a permissible load of 6t and 8t is recommended for most four-wheel drive vehicles, 11 ton is recommended for heavier models.

All winch extension tow ropes are made to high quality standards of **TM BELAUTO** and tested for strength.

BELAUTO®

ANTIFREEZE CONCENTRATE

ANTIFREEZE G12+ RED CONCENTRATE

Professional **Belauto Antifreeze RED G12+** is designed to reliably protect the engine from overhea-ting and freezing during operation. Recommended for all modern engines, including aluminum ones. Made on the basis of premium-quality monoethylene glycol and highly effective corrosion inhibitors, also contains a package of hybrid addi-tives.

Provides the optimal thermal mode of engine operation. Protects against corrosion and keeps the cooling system in perfect cleanliness. Safe for aluminum and alloys, synthetic materials and rubber; does not affect the plastic and paintwork of the car. Effectively protects the engine from freezing, "boiling" and increases its operation temperature in case of dilution one to one to -38 ° C.

PROTECTION	ANTIFREEZE	WATER

CARBOXYLATE TECHNOLOGY

BELAUTO ANTIFREEZE AND COOLANT RED G12+

RED G12+ is designed to reliably protect the engine from overheating and freezing during operation. Recommended for all modern engines, including aluminum. It is made on the basis of monoethylene glycol of a premium class and highly effective corrosion inhibitors, contains a package of carboxylate additives. Provides the optimum thermal mode of operation of the engine. Protects against corrosion and keeps the cooling system in perfect cleanliness.
Safe for aluminum and alloys, synthetic materials and rubber; does not affect the plastic and paintwork of the car. Effectively protects the engine from freezing, «boiling» and increases the operating temperature to - 42°C.

★ ★ ★ ★ ★

DESCRIPTION:

- Up to 78% of solar energy is reflected.
- Up to 98% of ultraviolet rays (UVA and UVB) are reflected.
- The visible light transmission system consists of several levels.
- Specially designed protection will protect the glass in the event of impacts.
- To protect against scratches, the film is covered with a particularly strong anti-abrasive layer with a very smooth and strong surface.
- Effectively reduces heating - increases driving comfort.
- Passes the signal - has no conductivity, compatible with GPRS and radio communication equipment.
- The adhesive composition has absolute transparency.

2 min

Reliable and convenient plastic handle

All metal piston

High-precision metal manometer

Rubber cushioning supports for improved stability and vibration absorption

Power cable with 100% copper

Plug with a fuse made of high-quality plastic

Convenient and reliable metal connector

Natural rubber hose

Additional adapters

High quality water-resistant bag is includes

PE

DOUBLE SIDED FOAM TAPE

Adhesive: acrylic solvent based
Tack: outer ≥25#
       inner ≥17#
180° tear strength: outer ≥15,442N/in
                  inner ≥21,128N/in
80°C holding power: ≥24 hours
Service temperature: -10°C +80°C
Thickness: 1mm
Color: black
Density: 67 kg/m³

Double Sided PE tape is used for strong fastening of various objects and materials (including mirrors, moldings) to various types of surfaces (including auto works).The tape consists of a new material - foaming polyethylene, which has exceptional characteristics of tear and puncture resistance. Due to a strong base and non-drying adhesive layer, the connection acquires special strength properties.

EVA

DOUBLE SIDED FOAM TAPE

Adhesive: acrylic solvent based
Tack: outer ≥22#
       inner ≥22#
180° tear strength: outer ≥0,979N/in
                  inner ≥0,993N/in
80°C holding power: ≥24 hours
Service temperature: -10°C +80°C
Thickness: 1mm
Color: white
Density: 44 kg/m³

Double Sided EVA tape on foaming polyethylene base has a wide range of using: construction, installation and auto works for reliable fastening of skirting boards and plastic curbs, installation and connection of metal and plastic constructions. In the production of promotional materials and decor for gluing pictures, tables, decorative elements. Due to thick base and specialized gluing layer of the tape, it has high level of adhesion. The tape has increased softness and flexibility (in comparison with similar ones), provides fast and easy connection of various materials. The tape fills all uneven-nesses, thereby increasing the area and the quality of the clutch. Double Sided EVA tape on foaming polyethylene base is used on rough, uneven surface.

Very High Bonding Tape consists of a durable acrylic adhesive with viscoelastic properties. This provides an extraordinarily strong double sided foam tape that adheres to a broad range of substrates, including aluminum, stainless steel, galvanized steel, composites, plastics, acrylic, polycarbonate, ABS and painted or sealed wood and concrete. Our bonding tapes provide excellent shear strength, conformability, surface adhesion and temperature resistance. They are commonly used in applications across a variety of markets including transportation, appliance, electronics, construction, sign and display and general industrial. Reliably bonds a variety of materials with strength and speed for permanent applications.

BREVIA

Automotive lighting
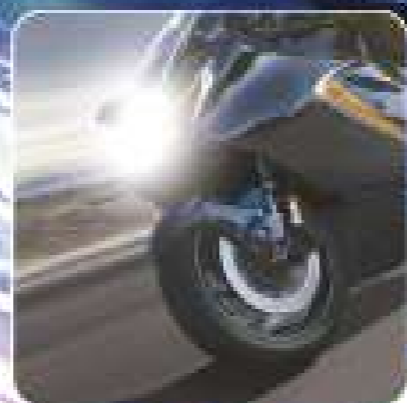

XENON LAMPS

MORE LIGHT, MORE SAFETY

Brevia XENON HID Lamp - is an excellent choice for all drivers who value maximum visibility and safety. They produce more light than standard lamps, and therefore allow you to illuminate the road surface much better. For drivers this Tool even more safety, as it gives them more time to react. Xenon light is not just the highest achievement of automotive specialists, but also stylish lighting for drivers who want to make their car stand out.

Electric arc technology provides two times brighter light compared to conventional filament technology and at the same time consumes three times less energy. The absence of filaments in xenon bulbs makes them insensitive to road vibration and shocks. Good road lighting is one of the important factors of comfortable and safe driving, thanks to which long night trips will become less tiring. With an average resource of up to 3000 hours, these lamps last longer than halogen lamps, which reduces maintenance and replacement costs.

· Quality of original spare parts
· 30% higher illumination compared to standard ones xenon lamps and by 130% compared to halogen lamps
· The light cone is longer by 20 m compared to the standard ones xenon lamps
· Maximum even, high-contrast light for safe, tireless driving
· Fully certified
· Long service life
· Stylish and modern design
· Very bright light arc, thanks to the controlled by electronics gas discharge
· Better road lighting reduces the risk of accidents

Brevia xenon lamps are recommended to be replaced by specialists who have the appropriate qualifications.

XENON LAMPS SET

Brevia xenon lamp sets are manufactured using modern technologies and with high quality control during the production process. The ignition units have processor control and are equipped with a system for bypassing lamp malfunction diagnostics (Super Slim Canbus), are not afraid of temperature changes, and also have a high level of sealing.

The best price/quality option! Complete set for installation.

Possibility of installation on a car with 12V on-board power supply.

· Power: **35 W**
· Available temperature range: **4300K/5000K/6000K**
· Base: **H1, H3, H4, H7, H8, H11, 9005, 9006, H27/2**
· **BREVIA ELECTRONIC HID BALLAST SYSTEM** ignition units:
  Super Slim, Super Slim Canbus

Complete set:

2 ballasts,
2 xenon lamps,
assembly set,

BREVIA®

LAMPS FOR TRUCKS 24V

Brevia lamps for buses, trucks and special equipment with a supply voltage of 24V have high performance and reliability.

The new Power Duty i Master Rally 24V lamps create maximum safety and comfort while driving, and also differ in economy, long service life and high resistance to vibrations.

We produce powerful and reliable 24V lamps for any needs of large and small fleets, logistics companies and professional drivers.

2X | VIBRATION RESISTANT

VIBRATION RESISTANT

Lamps for headlights with a voltage of 24V are designed for high loads and vibrations to which trucks and other heavy machinery are prone. Bad roads and vibration are common causes of headlight bulb failure. More rigid fastening of the plinth to protect against mechanical damage. Strong thread in the form of a double spiral, designed for resistance to vibrations in a wide range of frequencies while maintaining stable characteristics.

DIELECTRIC COMBINATION PLIERS

Combined dielectric pliers with cutting edges for cutting and forming cables and wire. Designed for work with medium and high voltage.
• made of high-quality polished black-nickel steel.
• with a high melting point and low electrical and thermal conductivity.
• cutting edges with high hardness in the range of 46-58 HRC.
• hardened and sharpened cutting edges.
• ergonomic insulated handle.

NOWAX®
GASKET MAKER AND ADHESIVES
FOR PROFESSIONAL USE

NX 51109
QUICK STEEL (EPOXY PUTTY), 57 g
(Cold welding)

Dark gray color. Designed for strong, tight and reliable connection of parts made of cast iron, steel, aluminum, copper, bronze, wood, brass, plastic.

Barcode:
0097254511093
Packaging:
24/288 pcs.

NX 51209
QUICK PLASTIC (EPOXY PUTTY), 57 g
(Cold welding)

Gray color. Intended for strong, tight and reliable connection of details from plastic, wood, metal.

Barcode:
0097254512090
Packaging:
24/288 pcs.

NX 48409
METAL BOND, 20 g

Epoxy glue of steel color.
Able to bond ceramics, wood, metal, leather, most plastics, porcelain, and even concrete. Resistant to water, gasoline, antifreeze, acid and most solvents.

Barcode:
0097254484090
Packaging:
12/144 pcs.

NX 48509
SUPER BOND, 20 g

Epoxy transparent glue.
Able to bond ceramics, wood, metal, leather, most plastics, porcelain, glass and even concrete. Resistant to water, gasoline, antifreeze, acid and most solvents.

Barcode:
0097254485097
Packaging:
12/144 pcs.

NX 49409
STEEL EPOXY ADHESIVE, 30 g

Epoxy glue to a wide range application.
Steel color.

Barcode:
0097254494099
Packaging:
12/144 pcs.

NX 49509
SUPER EPOXY ADHESIVE, 30 g

Epoxy glue to a wide range application.
Clear color.

Barcode:
0097254495096
Packaging:
12/144 pcs.

NX 49209
SUPER GLUE, 3 g

Universal instant glue for fast combinational gluing different types of plastics, rubber, metals, wood, porcelain, ceramics, leather, fabric, cardboard and paper.

Barcode:
0097254492095
Quantity on the tablet:
6 pcs.
Packaging:
100 tablets

NX 21139
THREADLOCKER BLUE, 10 g
(for collapsible connections)

Universal tured locker to seal thread with a diameter of 6 mm to 20 mm. Creates a strong elastic connection, does not lose its properties over time.

Barcode:
0097254211399
Packaging:
12/144 pcs.

NX 11109
REARVIEW MIRROR ADHESIVE, 1 ml

Especially strong and fast-adhesive glue for mounting the rearview mirror. Can be used in the case of metal-glass, metal-metal, glass-glass compounds.

Barcode:
0097254111095
Packaging:
25/200 pcs.

NX 49309
SUPER GLUE GEL, 3 g

Universal instant glue for fast combinational gluing different types of plastics, rubber, metals, wood, porcelain, ceramics, leather, fabric, cardboard and paper.

Barcode:
0097254493092
Quantity on the tablet:
6 pcs.
Packaging:
100 tablets

NX 21129
THREADLOCKER RED, 10 g
(for non-demountable connections)

Particularly strong connections for sealins threaded parts that do not require frequent disassembly. Suitable for fasteners up to 25 mm in diameter.

Barcode:
0097254211290
Packaging:
12/144 pcs.

NX 13215
EXHAUST SYSTEM SEALANT (CEMENT), 150 g +1100°C

High-temperature ceramic sealant ensures the tightness of the joints during the installation of exhaust systems, eliminates the emission of exhaust gases from small burnt holes and cracks.

Barcode:
0097254132151
Packaging:
12/144 pcs.

NX 36309
GASKET MAKER GRAY, +343°C, 85 g

Professional high temperature 100% silicone gasket maker. Gray color.

Barcode:
0097254363098
Packaging:
12/144 pcs.

NX 37309
GASKET MAKER RED, +343°C, 85 g

Professional high temperature 100% silicone gasket maker. Red color.

Barcode:
0097254373097
Packaging:
12/144 pcs.

NX 35309
GASKET MAKER BLACK, +315°C, 85 g

Professional high temperature 100% silicone gasket maker. Black color.

Barcode:
0097254353099
Packaging:
12/144 pcs.

NX 34309
GASKET MAKER CLEAR, +290°C, 85 g

Professional high temperature 100% silicone gasket maker. Clear.

Barcode:
0097254343090
Packaging:
12/144 pcs.

SEALANTS AND ADHESIVES

ULTRA BLUE MULTIPURPOSE RTV SILICONE GASKET MAKER

Permatex Ultra Blue is a multi-purpose sensor-safe, low-odor, non-corrosive RTV gasket maker. Ultra Blue is tested to OEM specifications and outperforms conventional silicones. Temperature range -54°C to 260°C intermittent; resists auto and shop fluids and vibration.

art. 85519

Weight : 340 g
Barcode : 0686226855190
Packaging : 6 pcs.

COPPER SPRAY-A-GASKET HI-TEMP SEALANT

Permatex Copper Spray-A-Gasket Hi-Temp Sealant is a fast-drying, metallic copper sealant that helps dissipate heat, preventing gasket burnout and improving heat transfer. This high temperature sealant spray sealant instantly and fills hot spots and surface imperfections and resists all types of automotive fluids.

art. 80697

Volume : 270 ml
Barcode : 0686226806970
Packaging : 12 pcs.

PERMASHIELD FUEL RESISTANT GASKET DRESSING & FLANGE SEALANT

Specially formulated for superior fluid resistance. This polyester urethane based gasketing compound withstands extreme temperature changes without hardening.

art. 85420

Volume : 59 ml
Barcode : 0686226854209
Packaging : 6 pcs.

ULTRA COPPER MAXIMUM TEMPERATURE RTV SILICONE GASKET

Permatex Ultra Copper is a high temperature RTV gasket maker, resisting temperatures up to 371°C. Ultra Copper is tested to exceed OEM specifications and is ideal for high temperature applications such as turbocharger applications and exhaust systems.

art. 81878

Weight : 85 g
Barcode : 0686226818782
Packaging : 12 pcs.

ULTRA BLUE MULTIPURPOSE RTV SILICONE GASKET MAKER

Permatex Ultra Blue is a multi-purpose sensor-safe, low-odor, non-corrosive RTV gasket maker. Ultra Blue is tested to OEM specifications and outperforms conventional silicones. Temperature range -54°C to 260°C intermittent; resists auto and shop fluids and vibration.

art. 81724

Weight : 95 g
Barcode : 0686226817242
Packaging : 12 pcs.

AUTOMATIC TRANSMISSION RTV GASKET MAKER

Specialty gasket maker that offers improved transmission oil resistance and good adhesion while retaining flexibility. It is sensor safe, non-corrosive and can be used as a gasket maker or dressing. This non-flammable, non-toxic and low order formulation resists again, weathering and thermal cycling without hardening, shrinking or cracking.

art. 81180

Weight : 85 g
Barcode : 0686226811806
Packaging : 12 pcs.

GEAR OIL RTV GASKET MAKER

Specialty gasket maker that is specially formulated to withstand the harsh gear oil environment found in differentials and transfer cases, ensuring a leak-proof seal. This specialty silicone has been tested to OEM specifications to ensure complete sealing. Gear Oil RTV Gasket Maker seeks and seals leak paths that cut gaskets cannot and can also be used to seal cut gaskets.

art. 81182

Weight : 85 g
Barcode : 0686226811820
Packaging : 12 pcs.

FORM-A-GASKET NO. 1 SEALANT

Fast drying, hard setting sealant designed for sealing rigid materials and flanges, or patching holes and joints where permanent assembly is desired. is resistant to common shop fluids and fuels.

art. 80008

Weight : 85 g
Barcode : 0686226800084
Packaging : 12 pcs.

VALVE GRINDING COMPOUND

Permatex Valve Grind Compound aids valve grinding and seating operations to remove burrs, surface defects, carbon, gum and corrosion. Use Permatex Valve Grind Compound for lapping and grinding chromium. Mixes with water to form an easy-to-use paste.

art. 80037

Weight : **85 g**
Barcode : **0686226800374**
Packaging : **12 pcs.**

FLOWABLE SILICONE WINDSHIELD & GLASS SEALER

Permatex Flowable Silicone Windshield & Glass Sealer "seeks the leak" flowing into hidden and hard-to-reach areas, forming a tough, waterproof, durable, clear seal that resists weather, extreme temperatures, vibration, shock, and most shop chemicals.

art. 81730

Weight : **42 g**
Barcode : **0686226817303**
Packaging : **12 pcs.**

RUST TREATMENT

Provides one-step treatment that encapsulates old rust and prevents new rust within minutes. Just brush or spray on. Within minutes, rust is replaced by a durable black polymer coating that may be painted. Excellent protective primer. Specially formulated to be used with body filler and fiberglass.

art. 81775

Weight : **236 g**
Barcode : **0686226817754**
Packaging : **12 pcs.**

RUST TREATMENT

Provides one-step treatment that encapsulates old rust and prevents new rust within minutes. Just brush or spray on. Within minutes, rust is replaced by a durable black polymer coating that may be painted. Excellent protective primer. Specially formulated to be used with body filler and fiberglass.

art. 81849

Volume : **300 ml**
Barcode : **0686226818492**
Packaging : **12 pcs.**

REAR WINDOW DEFOGGER ELECTRICALLY CONDUCTIVE TAB ADHESIVE

Permatex's Rear Window Defogger Electrical Conductive Tab Adhesive quickly and easily bonds defogger tab to grid on rear window. Provides a low-cost, high-quality repair for damaged rear window defogger tabs. Complete kit for a quick repair.

art. 21351

Barcode : **0686226213518**
Packaging : **6 pcs.**

BULLSEYE WINDSHIELD REPAIR KIT

Can be used to make air-tight repairs of bullseye damage up to 1 1/4" in diameter on most laminated windshield glass. This all-in-one kit is safe and easy to use and requires no mixing, no heat, making the repair virtually undetectable.

art. 16067

Barcode : **0686226160676**
Packaging : **12 pcs.**

MOTOR MUSCLE CARB & CHOKE CLEANER

Permatex Motor Muscle Carb & Choke Cleaner is a blend of solvents specifically formulated to dissolve and clean the residue deposited on carburetors and chokes during the normal operation of a motor vehicle or other gasoline engine powered equipment.

art. 80079

Weight : **340 g**
Barcode : **0686226800794**
Packaging : **12 pcs.**

HEAVY-DUTY RUBBERIZED UNDERCOATING

Permatex Heavy Duty Rubberized Undercoating is specially formulated to protect automotive underbodies from corrosion. The product dries to a firm, flexible, tack-free film has good abrasion resistance and effective sound-deadening properties. Rubberized for maximum thickness, durability and flexibility.

art. 81833

Weight : **454 g**
Barcode : **0686226818331**
Packaging : **12 pcs.**

COMPLETE REAR WINDOW DEFOGGER REPAIR KIT

Repair Kit contains everything required for making professional-quality repairs in just minutes. Includes state-of-the-art components and easy-to-follow instructions with photographs. Provides a low-cost, high-quality repair for damaged rear window defogger grids and tabs.

art. 09117

Barcode : **0686226091178**
Packaging : **6 pcs.**

VINYL AND LEATHER REPAIR KIT

Repair kit for home, automotive, and marine vinyl and leather upholstery. This easy-to-use kit contains: heat transfer tool, 7 colors of repair compound, clear vinyl adhesive and filler, grain pattern paper, plastic spatula, and instruction sheet with color matching chart.

art. 80902

Barcode : **0686226809025**
Packaging : **6 pcs.**

ULTRA DISK BRAKE CALIPER LUBE

An environmentally-friendly, green, non-melting, synthetic lubricant. This is formulated to lubricate under the most adverse brake conditions, assuring that critical caliper pins, sleeves, bushings and pistons remain lubricated throughout pad life.

art. 24110

Weight : **227 g**
Barcode : **0686226241108**
Packaging : **12 pcs.**

ULTRA DISK BRAKE CALIPER LUBE

An environmentally-friendly, green, non-melting, synthetic lubricant. This is formulated to lubricate under the most adverse brake conditions, assuring that critical caliper pins, sleeves, bushings and pistons remain lubricated throughout pad life.

art. 20353

Weight : **57 g**
Barcode : **0686226203533**
Packaging : **6 pcs.**

SELF-FUSING SILICONE TAPE

An all purpose repair tape that is made out of specially formulated silicone rubber. Contains no adhesives, yet chemically bonds to itself upon contact. Simply stretch and wrap for an airtight, waterproof seal in seconds. Replaces duct tape and electrical tape.

art. 82112

Barcode : **0686226821126**
Packaging : **6 pcs.**

BODY SHOP HEAVY DUTY HEADLINER & CARPET ADHESIVE

High-strength spray adhesive designed for repairing interior parts which have become detached or loosened. This heavy duty adhesive will adhere to headliners, carpets, truck linings and indoor door panels. It's resistant to extreme weather conditions and dries clear for a clean finish.

art. 27828

Weight : **474 g**
Barcode : **0686226278289**
Packaging : **6 pcs.**

ULTRA DISC BRAKE CALIPER LUBE

Permatex's Ultra Disc Brake Caliper Lubricant is environmentally-friendly, green, non-melting, synthetic lubricant. It is formulated to lubricate under the most adverse brake conditions, assuring that critical caliper pins, sleeves, bushings and pistons remain lubricated throughout pad life.

art. 85188

Weight : **14 g**
Barcode : **0686226851888**
Packaging : **6 pcs.**

HIGH TEMPERATURE SLEEVE RETAINER

Permatex High Temperature Sleeve Retainer is a one component, solvent-free, fast curing, anaerobic adhesive/sealant. It is a green colored liquid resin that hardens and cures in the absence of air.

art. 64050

Volume : **50 ml**
Barcode : **0686226640505**
Packaging : **6 pcs.**

Permatex

Permatex

ULTRA SLICK
ENGINE ASSEMBLY LUBE

Provides proper lubrication of metal mating surfaces is essential prior to starting a new or rebuilt engine. Ultra slick® adheres to component surfaces to prevent scuffing and galling during initial start-up. This high quality formulation meets or exceeds OEM performance specs for engine assembly lubricants.

art. 81950

Volume : **118 ml**
Barcode : **0686226819505**
Packaging : **12 pcs.**

BELT DRESSING & CONDITIONER

Permatex Belt Dressing and Conditioner extends belt life and penetrates the cord fibers of "V" belts to restore pliability and flexibility. Belt Dressing and Conditioner prevents belt slippage due to heat, cold, dampness, dust, and glazing. Eliminates squeaking and slipping.

art. 80073

Weight : **340 g**
Barcode : **0686226800732**
Packaging : **12 pcs.**

art. 80074

Weight : **141 g**
Barcode : **0686226800749**
Packaging : **12 pcs.**

LOW STRENGTH
THREADLOCKER PURPLE

Permatex Threadlocker Purple is a low strength threadlocker designed for fasteners under 6mm that require occasional adjustment. Removable with hand tools for easy disassembly. Threadlocker Purple eliminates vibration loosening, prevents leaks and is non-corrosive

art. 24024

Volume : **6 ml**
Barcode : **0686226240248**
Packaging : **6 pcs.**

MEDIUM STRENGTH
THREADLOCKER BLUE

Permatex Medium-Strength Threadlocker Blue is ideal for all nut and bolt applications 6mm to 20mm. Threadlocker Blue eliminates need for stocking expensive lock nuts and lock washers and locks and seals while preventing parts loosening due to vibration. Protects threads from corrosion.

art. 24200

Volume : **6 ml**
Barcode : **0686226242006**
Packaging : **12 pcs.**

CREAM PLASTIC WELDER

Permatex Plastic Welder Epoxy is a structural adhesive designed for general purpose bonding of a wide variety of material such as hard and soft plastics to specified surfaces. This Plastic Welder forms a tough, durable bond to most plastics, composites, ceramics, wood in any combination.

art. 84115

Volume : **25 ml**
Barcode : **0686226841155**
Packaging : **12 pcs.**

1 MINUTE GEL EPOXY

Permatex General Purpose 1 Minute Gel Epoxy provides the flexibility to reposition before the setting time. The fast setting, two-part adhesive and filler system is specially formulated with a Blue Dye Indicator that disappears when it's fully mixed and ready to use.

art. 84160

Volume : **25 ml**
Barcode : **0686226841605**
Packaging : **6 pcs.**

HIGH STRENGTH
THREADLOCKER RED

Is ideal for heavy-duty applications. 10mm to 25mm Red threadlocker is well-suited for permanently locking studs and press fits. Adds holding power on slip and press fit assemblies, and replaces set screws and snap rings. Permatex's Threadlocker Red locks against vibration loosening. May require heat or special tools for removal.

art. 27100

Volume : **6 ml**
Barcode : **0686226271006**
Packaging : **12 pcs.**

PENETRATING GRADE
THREADLOCKER GREEN

Permatex Penetrating Grade Threadlocker Green is a low viscosity threadlocking liquid that wicks along the threads of preassembled fasteners to secure them in place. Since it is applied after assembly, preventive maintenance procedures are simplified. Ideal for fasteners ranging from 2.2 to 12mm in size.

art. 29000

Volume : **6 ml**
Barcode : **0686226290007**
Packaging : **12 pcs.**

5 MINUTE EPOXY

Permatex General Purpose 5 Minute Gel Epoxy provides the flexibility to reposition before the setting time. The fast setting, two-part adhesive and filler system is specially formulated with a Blue Dye Indicator that disappears when it's fully mixed and ready to use.

art. 84101

Volume : **25 ml**
Barcode : **0686226841155**
Packaging : **12 pcs.**

HIGH HEAT EPOXY 260°C

Ideal for surface repairs with high temperatures such as under-hood automotive & home repair. This high temperature epoxy withstands 2X higher temperatures compared to standard epoxies that traditionally breakdown at 121°C. Ideal for under-hood repairs where temperatures can range up at 260°C on a hot summer day.

art. 84102

Volume : **25 ml**
Barcode : **0686226841605**
Packaging : **6 pcs.**

HIGH TEMPERATURE
THREAD SEALANT

Permatex High Temperature Thread Sealant is a medium strength anaerobic sealant with PTFE for tapered pipe threads. This sealing compound is of a white, creamy paste consistency. The high lubricating properties of this compound prevents galling on pipe threads and fittings.

art. 59214

Volume : **6 ml**
Barcode : **0686226592149**
Packaging : **12 pcs.**

DIELECTRIC TUNE UP GREASE

Permatex Dielectric Tune Up Grease protects electrical connections and wiring from salt, dirt and corrosion. Extends the life of bulb sockets and prevents voltage leakage around any electrical connection. Also prevents spark plugs from fusing to boots.

art. 81150

Volume : **10 ml**
Barcode : **0686226811509**
Packaging : **6 pcs.**

MARINE H2 HOLD EPOXY

Permatex Marine H2 Hold Epoxy bonds underwater applications without breaking and can be used on both under and above water repairs. This industrial strength waterproof epoxy is ideal for surfaces exposed to salt or freshwater such as portable water tanks, fuel tanks, drains, boats, and more!

art. 84200

Volume : **25 ml**
Barcode : **0686226841155**
Packaging : **12 pcs.**

COLD WELD BONDING COMPOUND

Permatex Cold Weld Bonding Compound is a 15-minute, two-part adhesive and filler system that eliminates the need for welding or brazing. It repairs, fills and bonds to iron, steel, brass, bronze, aluminum and copper. Once cured, it can be drilled, tapped, threaded, filed, sanded and painted.

art. 14600

Weight : **56 g**
Barcode : **0686226146007**
Packaging : **12 pcs.**

RTV SILICONE GASKET MAKER

Ultra Black is sensor safe, low odor, and non-corrosive with resistance to oil, shop fluids, and vibration. This sensor-safe, low odor, non-corrosive formula meets performance specifications of OE silicone gaskets and can be used on high flexibility and high oil resistant applications such as timing covers, transmission pans and oil pans.

art. 82180

Weight : **95 g**
Barcode : **0686226821805**
Packaging : **12 pcs.**

LIQUID ELECTRICAL TAPE

This electrical tape goes on as a liquid and dries to a vinyl polymer, making it resistant to dirt, dust, chemicals, moisture. This advanced design ensures that connections stay intact. The Applicator allows wide coverage without gaps and allows access to tight spaces that traditional roll tape and shrink tubing can not reach.

art. 85120

Volume : **118 ml**

MAGNUM STEEL EPOXY, 56 g

A fast-curing, two-part epoxy putty stick that permanently repairs leaks, holes, cracks in metals, fiberglass, concrete and ceramics. Use to repair pipes, tanks, radiators and couplings. When cured it can be drilled, filed, sanded and painted.

Barcode : 078727440294
Packaging : 24 pcs.

art. 44229

MAGNUM PLASTIC/MARINE EPOXY, 56 g

A fast-curing, two-part epoxy putty stick that permanently repairs leaks, holes, cracks in metals, fiberglass, concrete, ceramics and wood. Product cures underwater (fresh and saltwater applications). Dries white, does not shrink, is non-yellowing and rustproof.

Barcode : 078727442298
Packaging : 24 pcs.

art. 11109

REAR VIEW MIRROR ADHESIVE

A two-part adhesive that permanently bonds metal mirror buttons to windshields.

Barcode : 078727111095
Packaging : 12 pcs.

art. 13109

ANTI-SEIZE THREAD LUBRICANT, 28 g

Anti-Seize Thread Lubricant is a high temperature, premium quality copper anti-seize and thread lubricant. It contains a high percentage of micro-fine copper flakes in a semisynthetic, grease carrier and fortified with high quality rust and corrosion inhibitors.

Barcode : 078727131093
Packaging: 12 pcs.

art. 43109

5 MINUTE CLEAR EPOXY, 28.4 g

5 Minute Epoxy is a two-part, rapid-curing, clear, general purpose epoxy. Available in syringe, tubes, bottles and flow-mix applictor.

Barcode : 078727431094
Packaging : 12 pcs.

art. 44209

4 MINUTE STEEL EPOXY, 56.7 g

This industrial strength product is excellent for bonding metal to metal and for repairing and filling defects in metal, wood and masonry. The epoxy hardens to a rigid metallic mass (like steel); once cured it can be drilled, tapped, sanded, filed, painted and etc. Product dries by chemical reaction between the hardener and resin.
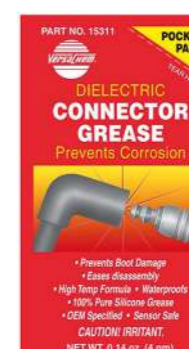

Barcode : 078727442090
Packaging : 12 pcs.

art. 00911

BATTERY NO-CORRODE GEL, 4 g

The Battery No-Corrode Gel prevents corrosion on battery terminals and electrical connections that help extend battery life. It has a high dropping point and gives outstanding performance to high temperature applications.

Barcode : 078727009118
Packaging : 240 pcs.

art. 15311

DIELECTRIC CONNECTOR GREASE, 4 g

Dielectric Connector Grease is a high performance, 100% silicone dielectric compound that enables boots to be removed from spark plugs and distributor caps after long exposure to high energy ignition systems and hot engine temperatures. Use on all electrical connections to prevent electrical power from migrating between circuitry.

Barcode : 078727153118
Packaging : 240 pcs.

art. 46409

5 MINUTE CLEAR EPOXY, 25 ml

5 Minute Epoxy is a two-part, rapid-curing, clear, general purpose epoxy. Available in syringe, tubes, bottles and flow-mix applictor.

Barcode : 078727464092
Packaging : 12 pcs.

art. 47709

STEEL WELD EPOXY, 25 ml

Plastic Steel/Steel Weld Epoxy is a two part, fast curing, high strength, general purpose epoxy. A cold welding compound, when fully cured it can be drilled, threaded, machined, tapped or filed. This product does not contain steel.

Barcode : 078727477092
Packaging : 12 pcs.
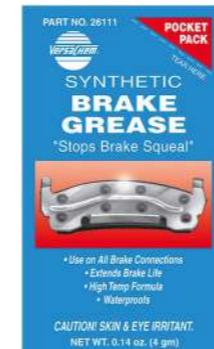

art. 26111

SYNTHETIC CALIPER GREASE, 4 g

Synthetic Caliper Grease is a high quality, synthetic brake grease formulated to prevent disc brake squeal and increase brake life by protecting and lubricating brake parts. Prevents rust and corrosion.

Barcode : 078727261110
Packaging : 240 pcs.

art. 13209

METAL GRINDING COMPOUND, 42,5 g

Metal Grinding Compound is a high temperature grease containing sharp, graded and extremely hard grains of silicone carbide. Use it for lapping, grinding, sharpening and polishing metal surfaces. Helps in valve grinding operations on automotive, industrial and marine engines.

Barcode : 078727132090
Packaging : 12 pcs.

art. 47809

PLASTIC WELDER, 25 ml

A strong structural adhesive formulated for bonding dissimilar substrates as well as unprepared metals, ceramics, wood, concrete and hard plastics. The final adhesive bond is designed to be load bearing and resistant to weathering, humidity and wide temperature variations. Minimal surface preparation. Non-sagging formula.

Barcode : 078727478099
Packaging : 12 pcs.

art. 47909

TITANIUM 5 EPOXY, 25 ml

Fast setting titanium-filled epoxy that bonds like and unlike metals with superior strength that will not shrink. Fills cracks, voids and gaps in all metals. Can be drilled, tapped, machined and sanded after cure.

Barcode : 078727479096
Packaging : 12 pcs.

art. 14109

HEAVY DUTY RADIATOR STOP LEAK, 21 g

The Heavy Duty Radiator Stop Leak works quickly and easily to stop larger leaks. Contains pure copper particles, special hardening and sealing agents to fill holes. Compatible with antifreeze. Prevents rust.

Barcode : 078727141092
Packaging : 12 pcs.

art. 90110

WINDSHIELD REPAIR KIT

Windshield Repair Kit helps prevent damage from spreading on windshield glass from bulls eyes, star damage and chips up to 11/4 inches. The spring-lock feature makes professional quality repairs with no mixing required. Cures in sunlight and restores to crystal clear.

Barcode : 085117901105
Packaging : 6 pcs.

art. 82009

EXHAUST SYSTEM REPAIR TAPE, 5 cm x 101.6 cm

Exhaust System Repair Tape is a high strength aluminum foil coated with an aggressive, high temperature acrylic adhesive. Conforms to both fibrous and sheet metal ducts providing excellent vapor seal. Fast and easy to apply.

Barcode : **078727820096**
Packaging : **12 pcs.**

art. 10160

EXHAUST SYSTEM JOINT & CRACK SEALER, 142 g

The Exhaust System Joint and Crack Sealer seals holes and stops leaks in mufflers, tailpipes and around joints. Sets like a weld. Makes new installations more secure. Resistant to monoxide gases and high temperatures.

Barcode : **077678001608**
Packaging : **12 pcs.**

art. 90214

PLASTIC TANK AND RADIATOR REPAIR KIT

This complete repair kit permanently repairs gasoline and diesel fuel tank leaks in less than 20 minutes. Use it to repair pinholes, rust-outs, hairline cracks and holes up to 1/2″ in diameter. No tank removal necessary.

Barcode : **085117902140**
Packaging : **6 pcs.**

art. 90180

HEAVY-DUTY FUEL TANK REPAIR KIT

This complete repair kit permanently repairs gasoline and diesel fuel tank leaks in less than 20 minutes. Use it to repair pinholes, rust-outs, hairline cracks and holes up to 1/2″ in diameter. No draining and no welding required.

Barcode : **085117901808**
Packaging : **6 pcs.**

art. 88839

MEGA COPPER SILICONE, 85 g

Mega Copper Silicone is a high temperature, moisture curing gasketing material that resists temperatures up to 700°F. Forms a strong silicone rubber that remains flexible. Resists aging and weathering. Non-corrosive to steel, iron and aluminum.

Barcode : **078727888393**
Packaging : **12 pcs.**

art. 99939

MEGA GREY SILICONE, 85 g

Mega Grey Silicone is a high performance, moisture curing gasketing material that cures into a strong silicone rubber that maintains long term durability and flexibility to make formed-in-place gaskets. Forms a tough, flexible silicone rubber gasket that resists aging and weathering.

Barcode : **078727999396**
Packaging : **12 pcs.**
